Introducing a new senior living
opportunity for members of
the UC Irvine family

Regents Point and the University of California, Irvine, have arranged to offer a unique senior living opportunity for UCI family members.

Regents Point, Irvine's premier continuing care retirement community just steps from the campus, is offering priority consideration to UCI faculty, staff, emeriti and their families who are interested in joining the community.

This is an excellent opportunity for faculty and staff to relocate older family members close to campus and become part of a community of active, engaged seniors, many of whom have ties to UCI.

Under this collaboration, Regents Point is pleased to offer UCI faculty, staff, emeriti and retirees a 50 percent discount on the entrance fee—the up-front cost to secure residency in our community. The cost savings are significant—anywhere from \$47,500 to \$275,000 on a non-refundable plan and \$76,000 to \$467,500 on a 75 percent refundable plan, depending on your choice of residence (one-bedroom, two-bedroom or villa). Monthly fees range from \$2,352 to \$4,936.

For those moving directly into a higher level of care—assisted living, memory care or skilled nursing—we're offering current resident rates under this program. This represents significant savings over the rates we normally charge non-residents who are admitted directly into a higher level of care.

Those who join the Regents Point community through this program will enjoy all the benefits we offer other residents: meal service, housekeeping, transportation, access to community programs and events, etc.

About Regents Point

Nestled between the UCI campus and the 347 acres of the William R. Mason Regional Park, Regents Point has been home to thoughtful and welcoming Irvine seniors of diverse career backgrounds for more than 30 years. As a continuing care retirement community, Regents Point offers multiple living options, including:

- Residential living
- Assisted living
- Skilled nursing
- Memory care

The community also offers a rich array of activities and programs. Residents can be found on the community's putting green, enjoying the park, taking trips to local museums, taking advantage of UCI's many continuing education options or enjoying gourmet meals in the dining room. Among its UCI ties, Regents Point is a longtime partner in the UC Irvine School of Medicine's Medical Readers' Theater, a program in which residents and third-year family medicine students read and perform plays and skits that focus on medical issues that concern older patients.

Regents Point is owned and operated by be.group, one of California's largest nonprofit providers of senior living communities.

Residence options

Regents Point offers a variety of floor plans to accommodate residents' living needs. You can choose from studio, one-bedroom, two-bedroom and villa options, all with multiple layouts to best suit individual living styles.
